ANDY ENGLISH BOT

The perfect learning companion

A telegram bot that would assist students in learning english by chatting with them as a natural companion. There are several features

PLAY

You can play language games of several types. Most prominent ones being : Emoji, Grammar and Words

VOCABULARY

Learn some new words. Andy would tell you a word and then also provide you it's meaning and pronunciation.

TALK

You can talk to it just like talking to regular assistants like Siri or Google Assistant. The best part is that Andy Bot is based on AIML(Artificial Intelligence Markup Language).

GRAMMAR

You can take grammar lessons and practice vocabulary extensively using this function.

STATS

You can track your progress using the stats section. It'll inform you about time you spent learning English, number of words you've learnt, your vocabulary level and several more.

SETTINGS

You can configure the features of Andy to suit your preferences. There are several levels of customisation offered on this bot.
